Letter We Love

I've been crocheting lap blankets for adult oncology patients at Loma Linda University Medical Center, because some family members were treated there for cancer. The idea came from my aunt (now passed away) who knitted afghans for a local VA hospital. The first Christmas, I gave 10 blankets. Fast forward 11 years to last December, I donated 81 blankets! So far, I've completed nearly 550 blankets. At work, I taught a few coworkers to crochet. Those who didn't want to learn donated yarn. Last year, one of the Center's directors said the patients are so pleased that someone makes blankets for them. It's a win-win for me, as crocheting late into the evening is a de-stressor from a hectic workday.

SIZE IT UP

I planned to make the Candyland Sweater [November/December 2009] by Robyn Chachula for my 8-year-old granddaughter. As I was crocheting away using a size 6mm hook, I realized that it was huge! Instead of frogging, I morphed it into a tunic for myself. I continued the pattern until it fit over the shoulders and joined under the armholes. I also added cap sleeves and a neck border to fit me (with the help of thin invisible elastic). The point is that with a little imagination and understanding of how the garment is built, you can

adapt even baby patterns for yourself.

—Simmie A., via email

We would never have guessed that you started with a child's sweater pattern! It looks great on you.

EARLY START

I have been crocheting since I was 16 and discovered your magazine when I was pregnant with my daughter, Gracie, who is now 2. I recently struggled with pneumonia, and while I was crocheting one day, Gracie asked to crochet with me. She is very eager to learn. Thank you for your magazines, because now she looks through them with me—such a wonderful bonding time!

—Amanda T., Ontario, Canada

Passing on your love of crochet to the next generation is very important!

ROUSING READS

I discovered the book *Creepy Cute Crochet* by Christen Haden in your magazine [September/October 2008] and was so excited by the idea of silly, creepy dolls. But I was scared, as a beginning crocheter. I finally got the

nerve to try it and now I am hooked (get it?). I LOVE making these dolls. I haven't been able to make one for myself yet, because my friends want them. My favorite is the zombie I made for my husband's desk at work. This has given me confidence that I can crochet!

—Christine, via email

That's exactly why we include reviews of our favorite books: to inspire our readers to try new things!

FOUND TREASURE

I inherited my grandmother's tweed coat, but sadly lost it to a flooded basement years ago. Ever since, I've had a bittersweet soft spot for speckled tweed. So this winter, I searched for a pattern to help fill the void—with vintage appeal, yet updated pizzazz—and your Tailored Blazer (September/October 2010) is just the thing. I love it!

—Dianne L., Gettysburg, PA

We're thrilled to hear that our pattern helped you replace a cherished garment.

Designing Woman

For **Kristin Omdahl**, creating crochet and knit patterns is a calling that began as a hobby halfway around the world.

BY CARRIE MELAGO

As a noted designer, author, and host of the "Crochet Corner" for Knitting Daily TV, Kristin Omdahl appears to have been crocheting and knitting forever. But it was only eight years ago that Kristin first picked up a hook and needles while she was pregnant and living in Israel. "I was determined to teach myself to crochet baby booties for my baby," said Kristin, now known for her stunning motifs and dramatic shawl designs. "Within a month of learning crochet, I taught myself how to knit as well. I made dozens of baby layettes and blankets while waiting for my son to be born!"

This was no small undertaking. Kristin, who lived in the Middle East during a tumultuous period, had to teach herself Hebrew to find yarn stores and had difficulty locating any patterns. It was her ingenuity that led to her prolific design career. As Kristin switched from making baby layettes to scarves and shawls for friends overseas, she had to dream up her own patterns "out of necessity" and started writing them down. Design work also enabled her to tap into her lifelong love of math and geometry, which assisted with shaping and sizing.

In 2005, after divorcing and returning to the United States, Kristin turned to pattern writing and design as a way to support herself and her 22-month-old son. "I had a dream

of carving out a small business with my knitting and crochet design work so I could stay home with my son and make a living for us," she said. "It was a slow road." But the first two designs she sent to a pattern company and magazine were picked up, and six years later, Kristin designs full time from her southwest Florida home.

Her latest crochet book, *Crochet So Fine*, was inspired by the beautiful scenery around her home. Orchids, seashells, waves, and palm trees influence her designs, and these natural elements are visible in her flowing, organic style. "I like to knit, crochet, and write at the beach, in my garden, or at outdoor cafes," she said. "I love to be outside. The trees, water and sunshine energize me."

Her forthcoming book, *Seamless Crochet* (due for release later this year

Dragonfly Shawl from Kristin's *Crochet So Fine*

by Interweave Press), is more

practical, giving crocheters the ability to work up projects made from challenging motifs without having to weave in hundreds of fiddly ends. "The motif joining techniques featured in the book create and join motifs without cutting yarn between motifs," she explains. "It's a lot of fun, and I'm really excited to share it with fellow motif lovers!"

Despite her busy crafting life, Kristin makes time for play too. She bikes and goes fishing with her now 8-year-old son, and even ran a marathon last year. "I love to build very large sand castles and sand castle communities on the beach with my son too," she adds. 🐞

Crochet Doctor

Expert **Linda Permann** unravels mysteries behind starching lace and crocheting beads.

Q: How can I stiffen crocheted lace? Will different methods give me different levels of hardening?

A: You are correct—each method of stiffening or starching crocheted lace gives a slightly different result. Some stiffeners are light and perfect for setting a doily's shape, while others transform your crochet into a rock-hard sculptural piece.

My favorite washable method for dimensional items is sugar starch. To make the starch, combine 2 parts sugar to 1 part water and bring it to a boil. Let the mixture cool and soak the item in it, then put the item on a surface that is wrapped in plastic wrap (to make clean up easier). Allow the piece to dry for several days, and don't touch it. If you mess up on your first try, soak the piece in hot water to dissolve the solution and try again. Many people wonder about ants going after the sugar in the solution, but I've never had a problem.

White glue works well to stiffen smaller items like crochet snowflakes, holiday ornaments, and pieces that won't need to be washed. Saturate your project in a mixture of equal parts glue and water, gently pat or squeeze out the excess, and shape the item as desired. Glue creates a permanent finish, so be sure to try it out on a swatch first. Play with the amounts of water and glue to achieve different levels of hardening. To add glitter, sprinkle it over the damp

items after you've shaped them.

For shaping delicate doilies and table runners, use commercial spray starch or liquid starch, following the package instructions. As with glue, you can dilute liquid starch to reduce stiffness. Starch washes out, so it's a good method for washable items.

Q: I've seen lots of shawls with beaded edges. How can I add beads to my crocheted shawls?

A: The easiest way to add beads to your work is to thread them onto your yarn before you begin. It's helpful to follow a pattern or plot out where your beads will fall so that you know how many beads to thread—depending on the project, you may need to thread hundreds of beads into your skein.

To create a beaded edge, fasten off the project and thread beads onto the edging skein, so you don't have to keep sliding the beads out of the way. Use a flexible, large-eyed beading needle to coax beads onto the yarn. If your yarn is too thick for the holes in the beads, thread them onto a separate strand of sturdy sewing thread and carry the beaded strand together with the yarn as you crochet.

Slide each bead up to the stitch before making the last yarn over, and let the bead fall to the back as you pull the loop through to complete the stitch. Work beaded rows when the wrong side of the project is facing you, so the beads end up on the front of the work. 

▲ To make a beaded single crochet: Insert your hook in the stitch, yarn over and draw up a loop, slide a bead up to the stitch in progress, yarn over and pull the strand through, encasing the bead and letting it fall to the back of the work.

▲ To make a beaded chain, slide the bead up to your hook, yarn over and pull it through. Repeat for as many beaded chains as you like, separating each loop of chains with a regular single crochet. Don't forget to skip a stitch or two on the working row—that way your loop will open up. This example shows three beaded chains per loop with one skipped stitch in the row below.

▲ Here's what the two beaded rows look like from the right side of the work.

A Lesson in Lace

Embrace the delicate stitches of crochet lace with our biggest fear busters.

BY KAREN RATTO-WHOOLEY

Making crochet lace is as easy as learning a new stitch pattern. Many of you have already made lace using heavier weights of yarn (think sport, DK, or worsted weight) as edgings on garments and blankets. However, some crocheters shy away from making crocheted lace—they think it is too difficult or that it takes years to learn how to follow lace patterns. I'd like to tackle the two most common fears that may be holding you back.

FEAR #1: TINY HOOKS

Usually, yarn weights dictate your hook size. For example, the most common sizes for worsted-weight

yarns are G, H, and I. So with lace-weight yarns, we immediately remember our grandmothers with their tiny, size 6 hooks and think, "No way, I can't work with a hook that small!"

Well, what if I told you that you can use a size G hook with lace-weight thread? It just takes a bit of practice to become comfortable with a finer weight of yarn and a larger than normal hook. After you get used to it, you'll find that three things happen:

- 1 It's a lot easier to maintain your tension. Start with a small lace sample with two or three repeats along the row. Practice that sample until you get the right tension.
- 2 The right drape just happens. Using a larger hook actually creates a soft drape. Your lace should be like a feather falling; slow and graceful. Crochet stitches by nature are quite dense, but a larger hook opens the stitches by putting "air" into them, making them softer and lighter. The result is a feather-like fabric.
- 3 Your fabric has the larger holes inherent to lace. What makes lace designs pop isn't always the stitch pattern, but rather the holes that surround the stitches. A larger hook will make those holes look more dramatic, which sets off the details even more.

The most important thing to remember when creating lace—keep your work loose!

FEAR #2: PUZZLING CHARTS

Another reason crocheters don't want to try lace is that many of the prettiest patterns use charts. Even some veteran crocheters have never learned how to read charts, but the time you'll spend learning is worthwhile because crochet symbols are universal. You'll soon be able to work charted patterns created by designers in Japan and Europe, even if you don't know their languages.

Key points:

- Every chart has a legend that explains what each symbol means. The sample lace chart uses Chain, Single, and Double Crochet stitches.
- The row numbers are on either side of the chart. These tell you which row is being worked. Each number is next to the turning chain for that row, so they also tell you which direction to read the row.
- Charts are always read from the bottom up. (Just like you work the fabric.) Start with 1 in the lower right-hand corner and read across to the left. Row 2 starts on the left and reads toward the right side of the chart, and so on.

Simple, isn't it? Using the ideas and information above, your lace crochet projects will take on new life. Enjoy learning to crochet lace! 

A large hook opens your stitches by putting "air" into them

Sample Lace Chart

Each symbol represents one stitch on the chart below.

Key points to help you achieve terrific lace

- Do not pull the yarn when completing a stitch. This makes your stitches too tight, which means that you will not be able to insert your hook into the stitch when working the next row.
- Keep the starting chain loose. If necessary, use a larger hook to create the foundation chain. Using a foundation cast-on can also help with this.
- If you tend to crochet loosely, make sure not to crochet too loosely. You may want to go down to an F hook, rather than starting with a G hook. Very loose stitches can create unsightly loops in the fabric.

Because lace work is so loose, your finished project may look unfinished and a bit rumpled. This is absolutely normal. To fix this, make sure you pin out the project and steam block it. You will be amazed at the difference!

FINISHED MEASUREMENTS

Shrug measures approx 33 (38.5)"/84 (98) cm wide and 39 (39)"/99 (99)cm long, before folding and seaming

Note Lace fabric is slightly stretchy and will lengthen and relax when worn.

GAUGE

One motif measures 5.5"/14cm wide.

Remember to check gauge for best results!

NOTES

1 Shrug is made from 42 (49) main motifs. The motifs are joined together, using a join-as-you-go technique, forming a rectangle, 6 (7) motifs wide and 7 motifs long. After the main motifs are joined, 30 (36) filler motifs are worked and joined into the openings between main motifs. 12 half filler motifs are then worked and joined into the openings along the side edges.

2 All motifs, except the half filler motifs, are worked in rounds with right side facing at all times. Join at the end of each round, but do not turn at the beginning of the next round. The half filler motifs are worked back and forth in rows.

Motif 1

Ch 8; join with sl st in first ch to form a ring.

Round 1 (right side) Ch 3 (counts as dc here and throughout), work 15 more dc in ring; join with sl st in first dc (top of beginning ch-3)—16 dc.

Round 2 Ch 1, sc in same st as join, [ch 3, sk

next dc, sc in next dc] 7 times, ch 3, sk last dc; join with sl st in first sc—8 sc and 8 ch-3 sps.

Round 3 Sl st in first ch-3 sp, ch 3, 2-dc Cl in same ch-3 sp, [ch 5, 3-dc Cl in next ch-3 sp] 7 times, ch 5; join with sl st in first Cl—8 Cl and 8 ch-5 sps.

Round 4 Ch 3, [6 dc in next ch-5 sp, dc in next Cl] 7 times, 6 dc in last ch-5 sp; join with sl st in first dc—56 dc.

Round 5 Ch 3, 2-dc Cl in same st as join, [ch 9, sk next 6 dc, 3-dc Cl in next dc] 7 times, ch 9; join with sl st in first Cl—8 Cl and 8 ch-9 sps.

Round 6 Ch 1, sc in same st as join, [ch 5, sk next 4 ch, (3-dc Cl, ch 4, 3-dc Cl) in next ch, ch 5, sc in next Cl] 7 times, ch 5, sk next 4 ch, (3-dc Cl, ch 4, 3-dc Cl) in next ch, ch 5; join with sl st in first sc—16 Cl, 8 ch-5 sps, and 8 ch-4 sps.

Round 7 Ch 1, sc in same st as join, *ch 7, sc in last sc made (picot made), 5 sc in next ch-5 sp, (3 sc, ch 4, sc in last sc made (picot made), 2 sc) in next ch-4 sp, 5 sc in next ch-5 sp**, sc in next sc; repeat from * around ending last repeat at **; join with sl st in first sc—8 ch-7 picots and 8 ch-4 picots. Fasten off.

Motifs 2–42 (49)

Work same as Motif 1 through Round 6. Before working Round 7, refer to assembly diagram to determine placement of motif.

1 Note the neighboring motifs to which the current motif is to be joined.

2 One side of the current motif is joined to one side of each neighboring motif. Sides are joined by joining the corresponding picots across the sides. You may wish to place stitch markers in the picots of each neighbor to be joined to the current motif.

3 If motifs are joined in the same order as shown in assembly diagram, at most two sides will need to be joined.

 Make these
crocheted earrings
on page 50.

4 The 2nd and 4th sides of the current motif are joined to one side each of the first and 2nd (if any) neighboring motifs, one at a time. Then the remaining sides are worked, without being joined, to complete the current motif.

Round 7 (joining round) Ch 1, sc in same st as join, ch 7, sc in last sc made (picot made), *5 sc in next ch-5 sp, (3 sc, ch 2, sl st in corresponding ch-4 picot of neighboring motif, ch 2, sc in last sc made, 2 sc) in next ch-4 sp, 5 sc in next ch-5 sp, sc in next sc, ch 3, sl st in corresponding ch-7 picot of neighboring motif, ch 3, sc in last sc made, 5 sc in next ch-5 sp, (3 sc, ch 2, sl st in corresponding ch-4 picot of neighboring motif, ch 2, sc in last sc made, 2 sc) in next ch-4 sp**, 5 sc in next ch-5 sp,

ch 7, sc in last sc made; repeat from * to ** to join 2nd neighboring motif (if any), 5 sc in next ch-5 sp, ***sc in next sc, ch 7, sc in last sc made, 5 sc in next ch-5 sp, (3 sc, ch 4, 2 sc) in next ch-4 sp, 5 sc in next ch-5 sp; repeat from *** around; join with sl st in first sc. Fasten off.

Filler Motif (Make and Join 30 (36))

Work same as Motif 1 through Round 2—8 sc and 8 ch-3 sps.

Notice the 4 ch-7 picots and 4 locations where motifs are joined, around the outer edge of an opening between main motifs. The filler motifs are joined to these ch-7 picot and motif join locations. You may wish to place stitch markers in these locations.

Round 3 (joining round) Hold filler motif in

one of the openings between main motifs, sl st in first ch-3 sp, ch 3, 2-dc Cl in same ch-3 sp, ch 2, sc in first ch-7 picot of opening, ch 2, 3-dc Cl in next ch-3 sp, ch 2, sc in join between motifs, ch 2, *3-dc Cl in next ch-3 sp, ch 2, sc in next ch-7 picot of opening, ch 2, 3-dc Cl in next ch-3 sp, ch 2, sc in join between motifs, ch 2; repeat from * around; join with sl st in first Cl. Fasten off.

Half Filler Motif (Make and Join 12)

Ch 8; join with sl st in first ch to form a ring.

Row 1 Ch 3 (counts as dc here and throughout), work 8 more dc in ring—9 dc.

Row 2 Ch 1, turn, sc in first dc, [ch 3, sk next dc, sc in next dc] 4 times—5 sc and 4 ch-3 sps.

Notice the 2 ch-7 picots, one join location between motifs, and the 2 ch-4 picots (at beginning and end of opening) around the edge of an opening across the side edge. The half filler motifs are joined to these picots and motif join. You may wish to place stitch markers in these locations.

Row 3 Ch 3, turn, sc in first ch-4 picot of side edge opening, ch 2, 3-dc Cl in next ch-3 sp, ch 2, sc next ch-7 picot of side edge opening, ch 2, 3-dc Cl in next ch-3 sp, ch 2, sc in join between motifs of side edge opening, ch 2, 3-dc Cl in next ch-3 sp, ch 2, sc in next ch-7 picot of side edge opening, ch 2, 3-dc Cl in next ch-3 sp, ch 2, sc in last ch-4 picot of side edge opening, dc in last sc. Fasten off.

GAUGE

25 sc = 4"/10cm

Round 1 = 8"/20.5cm (8.75"/22cm) circumference
Remember to check gauge for best results! If necessary, adjust hook size to obtain correct gauge.

HOW TO MAKE A GAUGE SWATCH

With first color, ch 50 (55). Taking care not to twist chains, join with sl st to form a ring.

Round 1 (right side) Ch 1, sc in same ch as joining and in each remaining ch around; join with sl st in first sc—50 (55) sts. Check gauge measurements as noted above; if necessary, adjust hook size to obtain correct gauge.

Note After working Round 1, check fit of Bangle. Bangle should fit over hand easily. If bangle is too tight, switch to a larger hook (or larger size of bangle). If bangle is too loose, switch to a smaller hook (or smaller size of bangle). Bangle instructions can be modified in increments of 5 foundation chains for a custom fit. Bangle circumference condenses to finished measurements after seaming, but stretches back to original measurement of Round 1 to fit over hand.

SPECIAL ABBREVIATIONS

bobble [Yarn over, insert hook in indicated st, yarn over and draw up a loop, yarn over and draw through 2 loops on hook] 4 times, yarn over and draw through all 5 loops on hook. Using finger, poke bobble to right side of bangle.
spike st (spike stitch) Insert hook in st one row below indicated st, yarn over and draw up a loop to height of working row, yarn over and draw through both loops on hook.

NOTES

1 Bangle is made in joined rounds starting at edge closest to wrist, increasing, then working bobble round, then decreasing and finally ending at wrist edge again. Foundation chain and last round are then whip stitched together to form a tube. Right side of bangle is always facing you.

2 To change color in joining sl st, insert hook in indicated st, drop old color, yarn over with new color, then draw through st and loop on hook. Fasten off old color. Continue with new color until next color change.

3 Each bangle is made with 3 colors. Bangle 1 is made with B, A, and F. Bangle 2 is made with A, B, and C. Bangle 3 is made with F, D, and E. Bangle 4 is made with D, E, and F. Bangle 5 is made with C, B, and A. Bangle 6 is made with E, F, and D. Bangle 7 is made with A, C, and B.

neighboring motifs to which the current motif is to be joined. You may wish to place a stitch marker in each side of the current motif that needs to be joined to a neighboring motif. If motifs are joined in the same order as shown in assembly diagram, at most three sides will need to be joined. The first side of the current motif is not joined to a neighboring motif. Then the 2nd side is worked and joined to the first neighbor. If there are more neighboring motifs, the 3rd and 4th sides are joined to these neighbors, one at a time. Finally, the remaining sides are worked, without being joined, to complete the current motif.

Note When working in a corner where two neighbors are already joined, work the joining sc into the body of the sc that is joining the two neighbors.

24 sts and 28 rows = 4"/10cm over single crochet using smaller hook (for appliqués)
Remember to check gauge for best results!

HOW TO MAKE A GAUGE SWATCH

With larger hook and 2 strands of A held together, ch 17.

Row 1 (right side) Sc in 2nd ch from hook and in each remaining ch across—16 sc.

Row 2 Ch 1, turn, sc in each sc across.

Row 16 Repeat Row 2.

Resulting gauge swatch should measure approx 4 x 4"/10 x 10cm. If necessary, adjust hook size to obtain correct gauge.

NOTES

1 Waistband of tutu is worked with 2 strands of A held together. You may wish to roll the yarn into 2 separate balls before beginning.

2 To change color, work last stitch of old

color to last yarn over, yarn over with new color and draw through all loops on hook to complete stitch. Proceed with new color. Work over the top of the old color, to hide it, until next needed.

3 With sewing machine or by hand, baste long edges together, approx. .5"/1.5cm from pinned edge. Sew another line of basting approx. .5"/1.5cm below first line of basting.

4 Gather the basted edge by holding the beginning threads of the two basted lines and gently, but firmly, pulling on the ending threads.

5 Place basted edge of tulle inside tutu waistband, with ends of tulle overlapping by several inches. Fold waistband over edge of tulle so top, gathered edge of tulle is covered.

Crafty Crustaceans

Lisbon-based artist **Joana Vasconcelos** softens up shellfish and other rough-and-tough creatures in lacy cozies.

BY MARINA SALUME

Portuguese artist Joana Vasconcelos uses dainty crochet to cover a menagerie of creatures. These sculptures utilize glazed ceramic pieces originally designed by Rafael Bordalo Pinheiro in the late 1880s and still produced by the factory he established in Caldas da Rainha, Portugal.

As an animal lover, Joana aims to give her ceramic pets a protective layer by crocheting cotton yarn in patterns inspired by traditional lace. The creatures are larger than life, but the detailed stitches invite viewers to examine them more closely. "The crochet pieces are great fun because the viewer might think, 'Gosh, that's

just like the crochet back at home, just like my Grandma's or my Mum's, but now I'm seeing it in an artistic context,'" says Joana. "I view the crochet pieces as patterns—I select them and put them together as if I were drawing."

Joana believes that because crochet has been used in many cultures to create beautiful and intricate lace, women of any nationality can connect with it. "The technique is international; it's a fully globalizing language, relative to the women of the entire world," she explains.

Born in Paris, Joana now lives in Lisbon. At the 2005 Venice Biennale exhibition, her work caught the attention of the international art world, and she is now represented by galleries in several countries.

The Crochet Liberation Front's **Laurie Wheeler** unites passionate crocheters with an island retreat this fall—and with her revolutionary blog every day.

BY MEGANNE FABREGA

A snide comment in 2007 about her crocheted shawl inspired a fiery post on Laurie Wheeler's blog. Tired of being mocked for her hooking habit, and worn out from ugly patterns and local shops that refused to take her yarn habit seriously, Laurie jokingly announced on her personal blog that she was starting the Crochet Liberation Front (CLF). At the same time, she started a CLF Ravelry group, laughing to herself at the thought of anyone even finding her group, let alone joining it. As of March of 2011, the CLF group had 6,456 members, and what started off as a joke has turned into a passionate movement.

The CLF now has its own website (www.crochetliberationfront.com) and Laurie has been appointed the group's fearless leader. As a lifelong crocheter, Laurie is determined to provide a forum for other crocheters to express their creativity and celebrate all the possibilities that crochet holds for fiber artists. With more than 30,000 hits on the CLF website last year, it's obvious that Laurie is not alone.

While her online community is vital, Laurie feels it is necessary to make personal connections. In 2010, the CLF's first Crochet@Cama Retreat was held at the Center for

The dyeing workshop using real indigo dyes

Wooden Boats on Camano Island in Washington, with 30 participants coming from as far as Puerto Rico to take classes such as Fair Isle

Crochet, How to Carve Your Own Crochet Hook, and How to Photograph Your Finished Objects. Bonnie Pierce taught the bullion stitch and Laurie ran a dyeing workshop.

"The classes were great," says Laurie, "but the retreat was really about creating a community."

"Yarn tasting" with newfound friends

We can learn all of the techniques we want, but when it really comes down to it, we are people making lifelong connections." The theme of the 2011 Crochet@Cama, to be held October 16–20, is "Contem-

plative Crochet," with an emphasis on meeting old friends, exploring new relationships, and supporting the burgeoning crochet community.

In addition to the retreat, which accepts 150 participants, the CLF

has its hands full these days, and not just with yarn and hooks. Its "Flamies" awards are an annual event, highlighting the best and brightest in the crochet world with awards for "Best Crochet Video Amateur," "Best Design 3-D Objects," and "Best Crochet Magazine" (spoiler alert: the one you're reading was nominated!), among many other categories. Laurie recently edited and self-published the CLF First Ever Book and she's in the early stages of planning a cross-country tour of yarn shops. In the meantime, the CLF continues its crusade of enlightenment and fiber-art solidarity with hooks held high. 🧶
